# BIBLIOGRAPHY OF SELECTED PUBLICATIONS ON RURAL RECREATION AS A BUSINESS

## INTRODUCTION

Rural recreation--as a business enterprise--is increasing.

There are two main reasons for this:

1. There is a rapidly increasing public demand for outdoor recreation--but public facilities to provide it are limited.
2. Recombining what have previously been considered agricultural resources to meet this growing demand will help promote agricultural adjustment.

This increased interest in the many facets of income-producing rural recreational enterprises has created a need for adequate, accessible, and objective information. This is especially true of the possibility of developing recreational enterprises on farms, and utilizing cropland and woodlands on a multiple-use basis. Thus far it has been only partially met.

The Cooperative Extension Service--as the educational arm of USDA--is in a unique position to meaningfully meet the compelling needs of this new development.

The Federal Extension Service asked State Extension Services for publications they have produced or used in their educational work in income-producing rural recreation. The first section of the accompanying bibliography lists the results of this inventory.

Other sections of this bibliography list selected publications of the U. S. Department of Agriculture, reports of the Outdoor Recreation Resources Review Commission, and publications suggested by the U. S. Department of Interior's Bureau of Outdoor Recreation.

Most of the publications listed here focus primarily on income-producing recreational enterprises. Others are indirectly pertinent to the main focus.

FES hopes that this bibliography has identified current information on the subject. But in addition to inventorying, this list can help make these materials more widely accessible--as well as serving as a partial basis for evaluating needs for other educational materials.

While an attempt was made to compile a complete listing, this bibliography should not be construed to be exhaustive. Nor is there any assurance that those listed will be available. (See directions for inquiring or ordering under each section heading.)

# Selected Outdoor Recreation Resources Review Commission Publications

The Outdoor Recreation Resources Review Commission initiated and published a series of studies by public agencies, universities, nonprofit research organizations, and individual authorities. We have listed only reports dealing (in part or whole) with income-producing recreation.

Copies of these reports may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., at the prices indicated.

DIRECTORY OF STATE OUTDOOR RECREATION ADMINISTRATION, by the Commission staff, based on an American Political Science Association Study. ORRRC Study Report 14. 1962. 146 p. Price \$.75.

A State-by-State description of recreation administration. Designed to serve as a directory of State agencies concerned with outdoor recreation, with a brief description of agency authority, organization, and programs.

ECONOMIC STUDIES OF OUTDOOR RECREATION, ORRRC Study Report 24. 1962. 166 p. Price \$1.00.

Five essays on economic aspects of outdoor recreation. Theoretical and practical approaches to economic problems of recreation development (including investment, pricing, timing, benefit-cost evaluation, public and private relationship), and economic impact effects.

FEDERAL AGENCIES AND OUTDOOR RECREATION, by the Frederic Burk Foundation for Education, San Francisco State College. ORRRC Study Report 13. 1962. 80 p. Price \$.50.

An analysis of the organizational and administrative structure of Federal agencies concerned with outdoor recreation. Focuses upon recreation program objectives and policies of the agencies, and identifies opportunities for more effective program coordination and cooperation.

HUNTING IN THE UNITED STATES--ITS PRESENT AND FUTURE ROLE, by the Department of Conservation, School of Natural Resources, The University of Michigan. ORRRC Study Report 6. 1962. 117 p. Price \$.60.

Examines the forces affecting game supply and summarizes a State-by-State survey of factors influencing hunting in the 48 contiguous States, with attention given to wildlife regulations, limitation of hunting access, public hunting areas, fee hunting, and shooting preserves.

MULTIPLE USE OF LAND AND WATER AREAS, by John Shanklin. ORRRC Study Report 17. 1962. 41 p. Price \$.35.

Analyzes the relationship of recreation to other uses of land and waters. Reviews multiple-use concepts of land management agencies of the U. S. Government and includes sections on multiple use at the State level and on private land.

NATIONAL RECREATION SURVEY, by the Commission staff based on data by the Bureau of the Census. ORRRC Study Report 19. 1962. 394 p. Price \$2.00.

Results and analysis of a nationwide survey of outdoor recreation habits and preferences of American people 12 or more years of age. Tables show participation rates by activity and region, according to age, sex, place of residence, education, occupation, and race. Estimates of expenditures, proportion of leisure time devoted to outdoor recreation and other factors are included.

PARTICIPATION IN OUTDOOR RECREATION: FACTORS AFFECTING DEMAND AMONG AMERICAN ADULTS, by Eva Mueller and Gerald Gurin. ORRRC Study Report 20. 1962. 94 p. Price \$.50.

Results of a survey conducted by the Survey Research Center, The University of Michigan, which discusses effect upon participation of income, education, occupation, paid vacations, place of residence, region, sex, age, life cycle, and race. Contains a chapter on camping.

POTENTIAL NEW SITES FOR OUTDOOR RECREATION IN THE NORTHEAST, by the Economic Research Service, U. S. Department of Agriculture. ORRRC Study Report 8. 1962. 132 p. Price \$.65.

Findings of a study to determine the existence of potential recreation sites of 30 or more acres, currently in private ownership in 10 densely populated Northeastern States. Describes procedures used by State agencies for land acquisition and development.

PRIVATE OUTDOOR RECREATION FACILITIES, by the Economic Research Service, U. S. Department of Agriculture. ORRRC Study Report 11. 1962. 154 p. Price \$1.00

The first part reports a survey of private owners of recreation facilities such as resorts, dude ranches, campgrounds, ski areas, vacation farms, and resort hotels, and includes a partial inventory of industrial recreation areas. The second phase is an appraisal of 66 cases of private recreation facilities scattered throughout the United States, with a discussion of type of activities provided, amount of land used, number of visitors, fees charged, problems encountered, and plans for expansion.
